PostScript File Generation

Prinergy Refiner PPD Setup / MAC OSX

This document will assist in properly preparing PostScript files to sent to Victor Graphics, Inc. Please download the latest Adobe PostScript driver from www.adobe.com AND the Prinergy Refiner PPD for Windows from the Victor Graphics website (www.victorgraphics.com/download/resources.html) before proceeding.

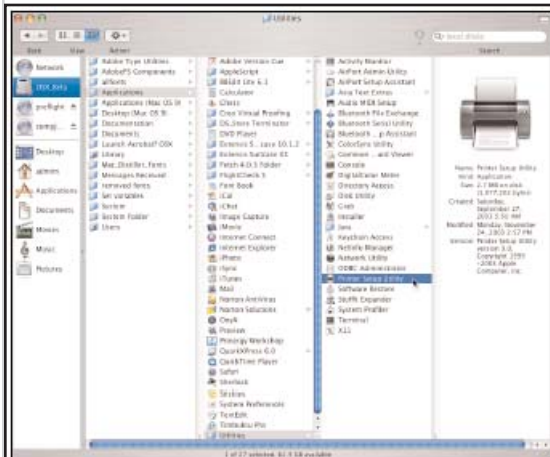

All application documents for Macintosh must be converted into PostScript before they can be used for electronic imposition.

NOTE: The following instructions may require Administrator access.

Download the Macintosh Prinergy Refiner PPD from our website to your Macintosh OS X desktop.

Double-click the file to extract the PDD following the on-screen prompts. Save the expanded file to the Macintosh OS X desktop also. Copy the Prinergy Refiner file to the following location: Macintosh HD: Library\Printers\PPDs\Contents\Resources\en.lproj.

Launch the Printer Center or Printer Setup Utility from the following location: Macintosh HD: Applications\Utilities\.

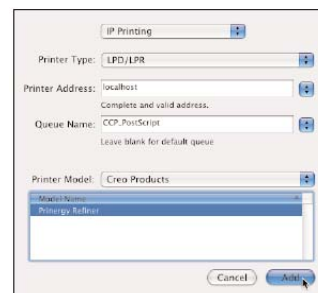

Add New Printer

- Select **Add** from the menu bar
- Select IP Printing from the Top Drop-Down Menu
- Set the Printer Type to LPD/LPR
- Select local host for Printer's Address
- Enter Prinergy_Refiner for the Queue Name
- Enter Creo Products for the Printer Model
- Highlight Prinergy Refiner for the Model Name
- Select **Add**

Printer List

- Prinergy_Refiner now appears in the Printer List
- Exit the Print Center or Printer Setup Utility

File Names And Locations

Macintosh OS 10.x

Adobe Distiller Joboptions

File Name: VG_PDF.joboptions

File Placement: Users/Shared/Adobe PDF 6.0/Settings/

Purpose: This file will allow selection of Victor Graphics Press-specific Joboptions in the primary Distiller window.

Adobe Distiller Fonts Folder

Folder Name: Mac_Distiller_Fonts

File Placement: Anywhere except an actual OSX Fonts Folder.

Purpose: Distiller frequently requires access to these fonts. If not available, PDF generation may abort when using our recommended Distiller Joboptions.

Prinergy Refiner PPD

File Name: Prinergy Refiner

File Placement: Library/Printers/PPDs/Contents/Resources/en.lproj/

Purpose: This is a device-independent PPD similar to the Acrobat PPD. Either this or the Acrobat PPD can be used.

Macintosh OS 9.x

Creo Color TIFF XT

File Name: Creo Color TIFF XT Placement: QuarkXpress/XTension/

Purpose: Allows preservation of spot colors in composite PDF when a grayscale TIFF has been colorized in QuarkXpress 4.x or 5.x.

Adobe Distiller Joboptions

File: VG_PDF.joboptions; VG_PDF.joboptions; VG_PDF.joboptions

Placement: Acrobat/Distiller/Settings/

Purpose: This file will allow selection of Capital City Press-specific Joboptions in the primary Distiller window.

Adobe Distiller Fonts Folder

File Folder: Mac_Distiller_Fonts Placement: Anywhere except the System Folder.

Purpose: Distiller frequently requires access to these fonts.

Adobe Distiller Fonts Folder

File Folder: Mac_Distiller_Fonts

File Placement: Anywhere except the System Folder.

Purpose: Distiller frequently requires access to these fonts. If not available, PDF generation may abort when using our recommended Distiller Joboptions.

Prinergy Refiner PPD

File Name: Prinergy Refiner

File Placement: System Folder/Extensions/Printer Descriptions/

Purpose: This is a device-independent PPD similar to the Acrobat PPD. Either this or the Acrobat PPD can be used.
